

ISOMEDIA Colocation Services

Connect your server directly to the Internet with ISOMEDIA Colocation service. ISOMEDIA offers the choice of three fully operational data centers in the Puget Sound area located in Redmond, Bellevue, and in downtown Seattle inside The Westin Building, a carrier-class hotel. ISOMEDIA offers Customer Managed Colocation, ideal for customers who have the systems administration expertise to maintain secure, reliable servers while giving you physical access to your server and related equipment. ISOMEDIA also offers Managed Services for those customers who require expert administration of their collocated equipment.

ISOMEDIA's Colocation also includes uninterruptible power supply, 24/7 security, video surveillance, key card computer controlled access, fully-enclosed cabinets with locking doors, fire suppression system (Westin & Bellevue Locations), and redundant generator backup. With ISOMEDIA Colocation, your server is connected directly to our redundant Internet backbone in ISOMEDIA's secure operating center.
